Fifty Years of Excellence

The Tradition Continues...

The 1992 Horizon represents the 50th edition of the York College yearbook. This naturally led to an anniversary theme: Fifty Years of Excellence...the Tradition Continues. The first yearbook was a soft cover publication known as *Memoirs*. The College owns three copies of this publication, which appeared several years before the first hardcover yearbook. *Memoirs* contained mostly typed copy and few photos, resembling a magazine format. A series of hardcover books, that have evolved into the current Horizon Yearbook, began in 1943. Known as the Tower because of the Tower Building at the downtown campus site (see photo on the title page), it wasn't until 1962 with the move to new grounds, that the yearbook became the Horizon.

More so than usual, this 50th volume has educated all who were involved in its production. Beyond the journalism, the marketing and the desk-top publishing, this year's Horizon has taken the staff through the college archives, into every corner of campus and on interviews with fascinating individuals. Horizon members can take pride in not only producing a high quality book representing the memories of a year gone by, but also in making a book that will be a valued part of York College history.

The motivation behind the 1992 Horizon has been more than merely preserving the events of YCP during the past year. It has become a quest to preserve the very heritage of York College. In 1967 the yearbook observed its 25th anniversary. The celebration was mentioned here and there in the book but it missed a wonderful opportunity to study and share York College's unique history--an opportunity that will not be forsaken again. It is with the goal of capturing 50 years of history in the midst of an exciting 1992 school year that the Tradition Continues...

TRADITION

YCA 1787

YCI 1873

The York College legacy can be traced back two centuries. Somewhere between 1776 and 1779, the Episcopal minister John Andrews opened a classical school on Beaver Street. In 1787, the York County Academy (YCA) merged with Andrews' establishment and York College's heritage began. YCA independently incorporated in 1799 and became the only school of significance within York County, educating and training many leaders in city, state and national affairs.

Guided by Samuel and Isabelle Small, the prestigious York Collegiate Institute (YCI) was organized in 1873. Successful in bringing liberal education to the area youth, YCI found itself competing with the growth in the number of public high schools, which led to a joint YCA-YCI agreement in 1929. Both schools kept their identities intact while combining their resources.

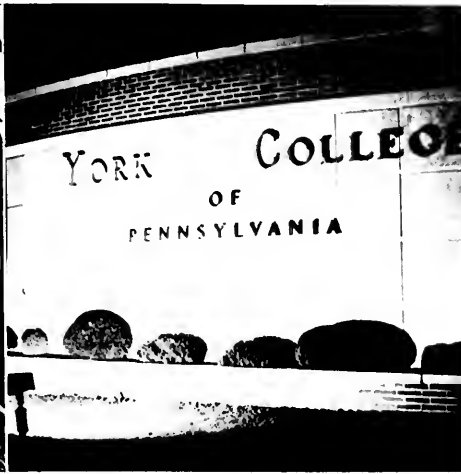

Surveyors scrutinize the country club grounds as part of York Junior College's plans for a new campus and an increase in accreditation. This significant goal was achieved in September 1968 as York College became Pennsylvania's newest four year institution. The building in the background was the Outdoor Country Club's Clubhouse and was located on the lawn where the fountain sits today.

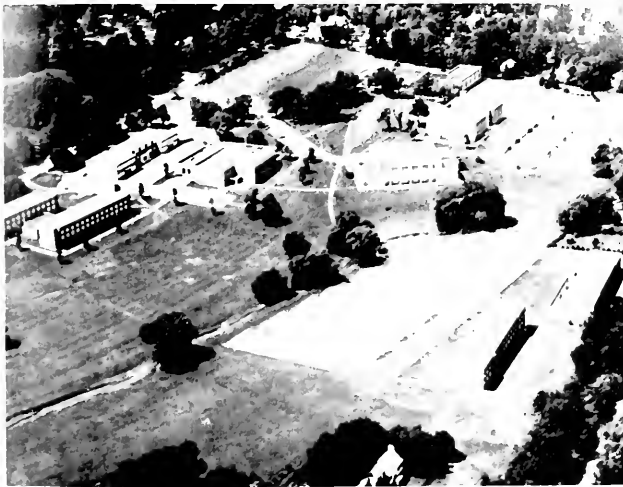

OF EXCELLENCE

YJC 1941

YCP 1968

In 1941, YCI's Board of Trustees voted to add a junior college program to the curriculum and that fall, forty two students were enrolled for their first year courses. The year 1947 witnessed YCI's closing of its secondary school and its full focus on the junior college.

York College was accredited by the Middle States Association of Colleges and Secondary Schools in 1959, which was renewed in 1969. York College settled in its present day site in 1968 with the awarding of its first Baccalaureate degree in 1972. The rich tradition of excellence that was given life over two hundred years ago continues to strengthen what is now York College of Pennsylvania.

This aerial view represents York College as it appeared in 1974. One of the most notable differences are the missing buildings--mini dorms, Life Science Theater, New Tyler Run and the parking garage to name a few. Other striking contrasts that catch the reader's eye include the tennis courts being next to the Penn/Beard Parking Lots, the lack of a place to drive through the creek and the missing fountain. This photo demonstrates the great advances York College has made in the past two decades.

Straight From the Source

The Horizon Yearbook proudly shares its interviews with a YCI graduate and a YJC graduate and their remarks that have greatly enhanced the historical theme of the 1992 edition.

Wendell M. McMillan York Junior College, Class of 1943

As editor of the *Tower Yearbook* and newspaper, member of York Junior College's first graduating class in 1943 and one time York College instructor, Wendell McMillan is a likely candidate to evaluate the past fifty years of college history. A York High alumnus, McMillan remembers a recruiter visiting his father, encouraging him to enroll his son at YJC. School officially started in September of 1941 with a total of 42 students. That December, following Pearl Harbor, the number of students drastically dropped and the newspaper frequently ran air raid instructions, according to McMillan. YJC received a large increase in students after WWII, under the GI Bill, which eventually resulted in the need for bigger facilities.

Having been a member of the first YJC class, McMillan takes pride in starting a new institution. Since YJC did not house students, the class consisted of recent high school graduates from nearby areas. This small group was close-knit and nearly everyone participated in several activities. Organizations like the yearbook and newspaper had to begin from scratch and the amount they accomplished amazes McMillan.

As a two year institution, everybody had much the same course load including English, math, physical education, language and history. York Junior College acted more as a liberal arts preparatory school. He compares his schedule to what a freshman or sophomore takes today. There

were many clubs and activities for the students. Every Wednesday afternoon, the school hosted speakers, assemblies, programs and musicals. Athletics and organizations like the French club and the *Samuel Small Literary Society* provided further extracurricular options. A definite contrast to YCP today was the existence of a separate boy's and girl's lounge where students could relax between classes.

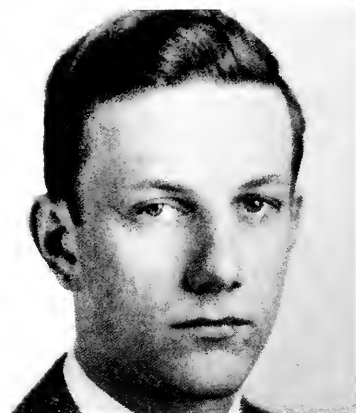

McMillan cites his days at YJC as providing him with "a good foundation taught by professors who were also good role models". McMillan continued his education

"York College's evolution is an ongoing process."--W. McMillan

at Juniata College and received a Fulbright Award to the University of Copenhagen in Denmark. Eventually, McMillan worked for the U.S. Department of Agriculture and the United Nations as an agrarian economist.

"YCP has come a long way", McMillan states. He sees more attention being given to quality education in recent years and approves. Another positive advantage of York College is its cost which allows higher education to be available to many who might not have had the opportunity otherwise. With all its advantages, however, McMillan sees York College's evolution as an ongoing process.

Dr. Bruce Grove York Collegiate Institute, Class of 1919

Dr. Bruce Grove, an esteemed and well-respected man, is a prominent figure in York College history. Having been involved with the institution for the past 77 years, Grove possesses the best credentials to discuss the YCP heritage. A 1919 graduate of the York Collegiate Institute, Grove maintained close ties with his alma mater, partaking in the thinking and managing of the school after graduating. A member of the York community, Grove is a long time Board of Trustees member, having witnessed the evolution of York College.

YCI was a college preparatory school, offering classical and scientific curriculums. Since it was a private school, students paid tuition to attend and 90-100% of its students went on to college. Every morning at eight o'clock, students were required to attend chapel services. Grove recalls classes of 12-14 that ended around three in the afternoon. After school activities included a visit to York's opera house or vaudeville theater. YCI's strong rivalry in basketball with York High provided further entertainment. As captain of both the basketball and track teams, Grove fondly remembers athletic events as attracting many after classes let out. There was always scheduled activities on Wednesday afternoons such as musicians or lectures. YCI offered its students a chance to join the debating societies; Phi Sigma for boys and Sigma Delta for girls. An activity that sticks out in Grove's memories was the school's prom. Held on the third floor of the YCI Building, couples would dance to the sounds of an orchestra. Grove laughed as he

illustrated the arm in arm strolls that constituted dancing then. Despite the passage of time, students were much the same. Favorite hang-outs emerged, clubs encouraged student involvement and YCI provided activities to entertain its students.

With the growth in the number of public high schools, YCI and other schools like it faced an overall decline. Grove became involved in the administration of the school shortly after graduation. Belonging to the board before they began keeping records, Grove remembers the early board's role primarily as bill payer. Over the years, the board has expanded as a body, but its members remain dedicated, enthusiastic

second life to me!"**

--B. Grove

and hardworking. Grove has been instrumental in the development of the Archives and Rare Books Room of the College. He has donated many of his personal records and awards to YCP, greatly enlarging the school's archives.

When asked how he likes the new York College, Grove enthusiastically replied, "I love it!" Kidded about counting every brick on campus, Grove planted virtually every tree on campus and has watched every YCP building being erected. When health permitted, he used to take a daily walk to campus. Having retired twenty years ago, Grove proudly asserts that "the college has been a second life to me!"

Guest Starring...

Over the years, York College of Pennsylvania has hosted numerous performers and dignitaries. Covering a vast array of interests and fields, these special "guest stars" have enlightened, entertained and informed the college community. The photographs and list offered here is only a sampler of YCP's many distinguished visitors.

Kenneth Adelman received an honorary doctor of humane letters degree during the May 1990 graduation ceremonies. Adelman is the former director of the U.S.

Former president Gerald R. Ford addressed the campus in 1980.

York College history, which spans two centuries, has spawned an ongoing debate over who deserves the title of York College founder. The cause of this controversy dates back to 1929 when YCP's ancestors--the York County Academy (YCA) and the York Collegiate Institute (YCI)--signed a reciprocal teaching agreement, whereby the two institutions held all their classes in the YCI Building. The Academy Building thus ended 142 years of educational use. Both schools retained their own identities, despite pooling their resources. In fact, the York County Academy's Board of Trustees is still in existence today.

The Reverend John Andrews started a school in York somewhere between the years 1776 and 1779. The first public record of this school appears on the 1781 tax rolls. The York County Academy (YCA) is documented as being established in 1787 and independently incorporated in 1799. Born on April 4, 1746 in Maryland, Andrews was a scholar, teacher and clergyman. He taught philosophy at the College of Philadelphia and became Vice-Provost of the institution when it became the University of Pennsylvania. His classroom notes can be read today in the University of Pennsylvania's rare books room. In 1776,

of the Fathers or Samuel Small?

Samuel Small

Andrews was forced to give up his church and school in Maryland because of his refusal to renounce his loyalty to the English crown. After returning to York, his Tory roots resulted in the townsmen dunking Andrews in the Codorus Creek.

Samuel Small, born on July 25, 1799, established the York Collegiate Institute (YCI) in 1873. A well-respected philanthropist, Small founded YCI to instill religious values into the youth. The Institute gained considerable prestige and success in bringing liberal education to the community. Small was responsible for organizing the Children's Home and York Hospital while Isabelle, his wife, is credited with providing the collection that is now YCP's library. Small died on July 14, 1885 just six months before the YCI Building was completely destroyed by fire. Childless, Small left no heirs. His nephew, Samuel Small, rebuilt YCI in 1886 in his uncle's memory.

Thus when the two institutions joined together, York College of Pennsylvania's heritage was born. Since Andrews and Small were the rightful originators of their respective schools, who should be named York College's founder is for you to decide.

F.Y.I. For Your Information

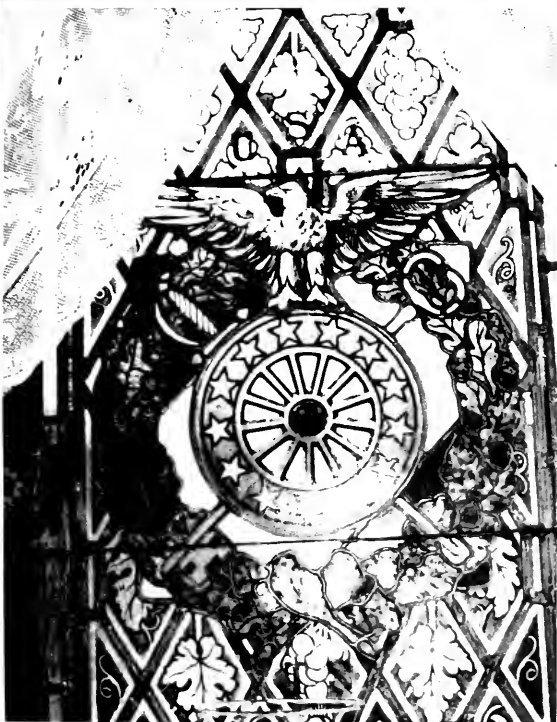

Did you know that the Snack Bar opened in 1945 as a Student Council initiative? Then located in the gym, the Snack Bar was advised by Mr. Bryant and Miss Van Horn and served as a rendezvous point for students to meet and gather. When the furniture arrived unpainted, students eagerly took over and applied a coat of shellac. By selling food, students raised money to install a milk, cookie and candy machine. Pie a la mode and cake a la mode festivals were held with all proceeds going to the Lounge Committee. Further funds were raised by piano recitals by Mrs. Marianne Bellanger, an instructor in music. With the addition of a juke box, the Snack Bar quickly became a favorite among York Junior College students.

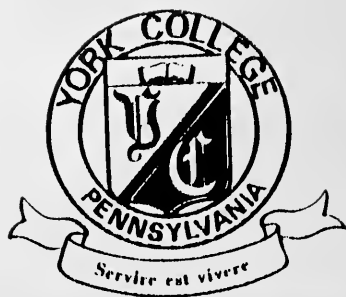

Did you know that the YCP's Lincoln Room houses over 1,000 books dealing with Abraham Lincoln? Located in the Schmidt Library, one of the items in the collection is an original document signed by Lincoln and Secretary of State Seward. A replica of his hat, glasses and the rocker in which he was shot, both dating from the mid 1800's also adorn the room. Professor Morrison donated authentic Civil War swords, one Union issue and the other Confederate, that are just one of the many historical pieces that can be found in the Lincoln Room. Among the numerous paintings and drawings of Lincoln in the collection is an Andrew Wyeth charcoal signed by the artist and four governors of Illinois. All students are invited to stop in to view and learn more about the Lincoln Room.

Did you know that the statues outside Schmidt Library represent the four seasons? The marble columns they rest upon once framed the entrance to the York Collegiate Institute. Mrs. Purdon Whiteley had them in her garden and wanted to return them to the school. She donated them in 1979 in honor of her graduating class of 1907.

Did you know that the stained glass windows found throughout campus once were in the York Collegiate Institute Building? Each YCI class purchased one at one dollar apiece and donated them in their class' honor to the school. The Ladies Auxiliary launched a campaign to restore them and most of the thirty original windows were brought to the current campus. They can be seen today in the president's home, the 1770s Room, the Chapel, the doorway in the library, the Special Collections Room and the Bell Tower.

Proud of its Past Confident in the Future

President George W. Waldner discusses YCP

It is often noted that history provides a prologue to the future, and that truism applies to colleges as well as countries.

Yet, we know that history does not simply repeat itself. The future always has features that are new, reflecting the necessity to adapt to changing conditions and to meet new, more ambitious goals. The York College Community looks to the future as one of widening opportunities for service and excellence.

During the 1991-92 academic year, the campus as a whole has participated in a comprehensive strategic planning process. We have focused first on what makes YCP distinctive, attempting to identify historic strengths that can be accentuated further in the future.

There is a consensus that the College's comprehensive curriculum, offering majors in both arts and sciences, as well as professional fields, is a fundamental feature. Attending York College enables students to choose to concentrate in history or accounting, English or nursing, biology or business administration, just to name a few of the disciplines available. In the future, this eclectic mix of liberal arts and professional fields will be maintained and strengthened.

A second distinctive feature of YCP is the special relationship of students and professors. Accessibility, friendliness and caring are words often used by YCP students to describe the faculty. This precious family feeling will require continued nurturing in the future, with even greater attention paid to academic advising and faculty development. Faculty members are also very pleased with the ability and motivation of YCP students. Continued efforts will be made to attract to YCP diverse, compatible and capable entering classes.

A third positive feature of the College is the campus and its physical facilities. We are all

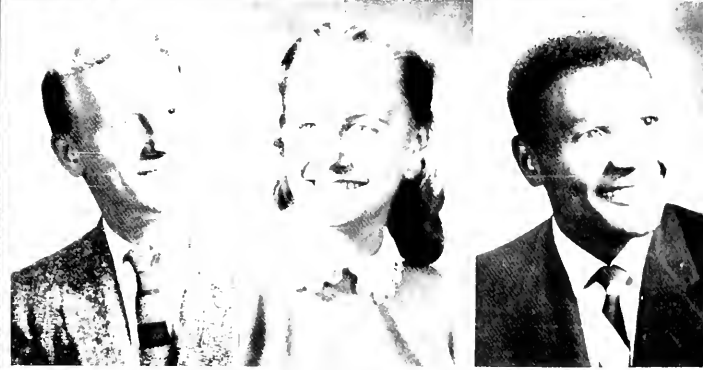

uplifted by working and playing in the clean, beautiful and convenient environment that YCP provides. To maintain this strength in light of recent enrollment growth will be a major challenge for the future. A new classroom building, expanded physical fitness and cafeteria facilities, and more on-campus apartment style housing are possible projects for deliberation and decision. Adequate financial support for these or other projects will have to be identified in advance to ensure that YCP maintains another of its strong points, which is the avoidance of a debt burden.

Many more strengths and future prospects could be discussed, but I shall close these comments with just one more, that of sustaining YCP's accessibility. Accessibility is provided most clearly by limiting to the minimum tuition, room and board prices. We are all proud that students find a solid program at YCP for one-half to two-thirds of the costs of private colleges of similar type and quality. Tuition cost control will depend in the future on avoiding institutional debt and, increasingly, on generous support by alumni for scholarship endowments and the general annual fund. Future YCP students are relying on you as alumni to help provide the financial basis for both modest tuition charges and scholarship aid. We also plan to remain accessible to adult and non-traditional students and to the recent high school graduate who is strongly committed to doing good academic work in college but may not have the strongest high school grades and test scores.

York College is proud of its past and confident in the future. We have been well served by fine leaders, faculty, and staff. Our alumni body is growing toward 15,000 men and women, who are excelling both in careers and community service. We look forward to broadening horizons as an institution, just as members of the Class of 1992 approach the widening vistas of their future lives.

From Yesterday to Today

If there's one place to find out anything about YCP and its history, it's the archives and if there's one person who knows the archives, it's Susan Beecher. Since December of 1976 when President Miller hired her, she's been collecting, filing and displaying anything concerning York College.

Her day starts at 8:30 A.M. with a check of the mail for any requested information or the addition of more information. Anything new is added to the current scrapbook, of which there are presently seventy three. She makes sure that at any point in time, one can find the answer to any question concerning the history of the college, and that they will be able to see articles and/or pictures of the event in question.

In records dating back to the Revolu-

tionary War, Beecher notes that there are articles pertaining to Lafayette's presence in York. In other records, referred to by Beecher, it is evident that there were no graduations from the York County Academy for one hundred and forty years because the administrators felt that education was an ongoing, never ending process. The school was even written up in Ripley's stating, "Believe it or not, a school where no one graduates." Although there were no graduates, Beecher referred to other documents that showed students going on to such schools as Princeton, Harvard and Yale.

Aside from the operation of the archives, Beecher is also part of many social activities here at the college. She helps with the organization of inaugurations and graduations, and has decorated the

President's home, as well as the 1770's room.

Beecher's favorite part of YCP is the family atmosphere. She believes that she knows the majority of the faculty, and she loves the students because they are what makes YCP so special. Her love for her job can be summed up in her own words, "How many people can honestly say, 'I look forward to going to work today.' - I truly can." Although she will retire in a few years, she plans to remain active in the community, because she needs to keep going.

A Growing Institution

The transformation of YCI into YCP didn't happen overnight. Dr. Wetzler, a professor here since 1956, can surely enlighten us as to these changes and their effects. He feels the decision to move from the Tower building to our present campus was a wise one. Why? Because first of all, the old building, according to Wetzler, was a fire trap with one coal stove dating back to the 1800's to heat the entire building, and second, the increasing size of the faculty and student body would never be accommodated by the building.

Another sign of growth is seen when looking into student activities. Wetzler stated that in the Tower building, all activities, from book sales to club meetings, took place in the gym. Now, we have the Robert V. Iosue Student Union, the Life Sciences theater and nu-

merous meeting areas throughout campus. One aspect of student activities that has remained constant is the student involvement; the students are still very involved in the school.

When asked where he sees YCP in fifty years, Wetzler replied, "as a four year university granting mostly masters degrees." He also felt that in order for YCP to continue to grow, we need more local students. This will insure good ties with the community, and provide local alumni.

Dr. Wetzler has enjoyed his stay here at York College and plans to retire in May of 1993. He hopes to spend more time doing what he enjoys—playing ping pong and flying. In his words, "It's time to give someone else a chance to experience York College."

FACULTY

An Eyewitness to Change

With twenty seven years of York College experience behind him, Dr. Robert H. Terry is more than qualified to reflect on YCP history. Having served as a the faculty senate president and on most of its committees, Terry's admission to having "a pretty good feel on the pulse of this school" is undeniable.

Over the years, this professor has been an eyewitness to widespread change. The biggest being the transition from a junior college to a four year college. YCP's tremendous intellectual growth is key to the college's success.

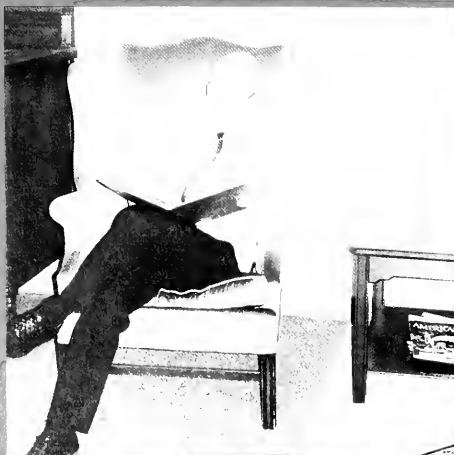

Another notable difference is the urbanization of York College. In conversations with out-of-state students in the 1960's and 1970's, Terry recalls their belief that York was rural and remote. Today, with YCP's access to interstate highways, students frequently go home to Long Island or Baltimore for the weekend and commuting distances have increased. Driving back and forth forty minutes has become commonplace, echoing, Terry states, a change

not only in York College but society as well.

One of the more interesting changes Terry shared dealt with dress code. For at least his first five years, a rigid dress code existed at York College. One of Terry's most memorable experiences was serving as clothes monitor during spring registration in the late 1960's. He was assigned the task of standing in front of the Student Center and stopping all men that had beards, mustaches or sideburns that were too long. This proved extremely embarrassing for Terry who had a beard himself - a fact that the college president vehemently disapproved of. No faculty member, as well, would have gone to class without a shirt and tie. Students tolerated this for about three years and then for a variety of reasons, they barricaded Campbell Hall, the library and the entrance to campus. With sheer numbers on their side, these several hundred students effected change.

Paralleling these changes, Terry sees today's York College as a much stronger school academically. The faculty's international dimension is a unique characteristic of YCP that most small schools do not possess. Terry believes "it has been a wonderful opportunity for me to be someplace that's on the edge of growing and then grow with it." Terry's vision of York College fifty years from now is of an institution that's rated as one of the best in Pennsylvania, if not the East coast. Nicely summarized, what YCP has is great potential.

Dr. Terry looks forward to at least ten more years of teaching and looks back at the past twenty seven years with enjoyment. "The positive so outweighs any negative that I just can't see anything but good things happening to York College.

Dr. Terry

ORGANIZATIONS

The Tradition Continues...

The 1977 Tae Kwon Do Club demonstrates their moves.

The Women's Advisory Group gave a Tea on Oct. 14, 1956 to welcome Mrs. Buechel to York Junior College.

The editors of the 1943 Tower can claim responsibility for York Junior College's first ever hardcover yearbook.

Ambassadors

The Y.C.P. Ambassadors program represents the college and recruits perspective students from all areas. Susan Kauffman, who has been involved in the organization for two years, says that being an Ambassador has improved her public speaking skills. She states, "being an Ambassador gives me the opportunity to speak to large groups of people with confidence and without being nervous." The organization is very valuable to its members, and in addition to being fun it is also rewarding. Susan says, "I have learned a lot through it and it has been one of the most rewarding activities I have been involved in on campus."

Clockwise: The Ambassadors take time out to pose for a photo during Parent's Weekend. Susan Kauffman, Kenneth Nuss, and Dawn Lynd smile pretty for the camera.

Margaret Smith and Rodney Altemose pose for a picture.

Left to Right: Robert Danner (Advisor), Kenneth Nuss, Dawn Lynd, Todd Verrecchia, Susan Kauffman, Rodney Altemose, Margaret Smith.

Band

The York College Stage Band is dedicated to playing various styles of contemporary music such as straight-ahead jazz, bossa nova, samba, rock, and fusion. Part of the fun in participating in the York College Stage Band is derived from everyone's ability to improvise. The result is always surprising as well as satisfying. The band benefits both the college and community. The performances of the band include several on campus and off campus as well. This course carries one credit and rehearses twice a week.

Members of the Band: Trumpet: Doug Proscia. Tenor Sax: Joe Lupinacci. Alto Sax: Dave Wilson. Trombone: Paul Tice. Bass Guitar: Mark Sewell. Drums: Jeremy Corday.

Orchestra

The Symphony Orchestra of York College gives students the opportunity to continue developing their musical talent beyond high school. George Ward, the symphony's conductor, says, "To know that you as an individual can contribute to something that enlightens and pleases many others makes you feel good about yourself." The orchestra has given free performances that have fostered a greater appreciation for classical and contemporary music among the listeners.

Members of the YCP Orchestra: Flutes: I. Zug, C. Peter, J. Roddy. Clarinets: K. Ort, S. Wenzel, S. Hollister, A. Turner, A. Henry. Bass Clarinet: E. Griffen. Oboes: E. Wilkes, D. Gladfelder. B.S.U.

The Black Student Union is a campus organization that stresses unity among its members. According to president Linda McCullough, the B.S.U. has benefited the college in several ways. "B.S.U. has helped clear up many myths that people believe about the black culture. Obviously, we can't reach everyone but we have reached some. Even if we only reach one person, our goal has been accomplished." This organization has taught its members to be proud of their culture and also to stand up for what they believe in.

C.A.B.

The Campus Activities Board provides over sixty activities for the students each semester. Many of the activities are free or very inexpensive. The students involved in C.A.B. work hard to provide a variety of unique entertainment. According to Jim Stiles, the president of C.A.B., being a member is important. "It means a good time for all involved, hard work, but always fun." The Campus Activities Board is a valuable campus organization that truly benefits all of the students at York College.

C.L.F.

Christian Life Fellowship is an organization whose purpose is to gain a closer understanding of how God interacts with people as individuals and groups. According to president Amy Martelli, CLF participates in a variety of activities and service projects that benefits both York College and the community. The Christian Life Fellowship has serviced the Access Shelter, Habitat for Humanity, and the Crop Walk, just to name a few. In addition to community service, they also spend time with each other in discussion and Bible study.

Rodney gives advice to a fellow C.L.F. member.

D.P.M.A.

Data Processing Management Association is an organization that bridges the gap between the very abstract and the very technical world or computer technology. According to the organization's president, John Gaughan, "D.P.M.A. has aided the Academic Computer Center by providing better service to the students and faculty it serves by providing training and new ideas for better service." D.P.M.A. gives its members the opportunity to practice their leadership and planning skills while interacting with other individuals who share the same interests.

Forensics

The Forensics team is the speech team on campus. Melissa Kraus, president, tells that "joining the Forensics team gives students the opportunity to improve their speaking skills. Speeches are given in the community, on campus, or at Forensics competitions. All students can benefit from the team." Joining the team is a fun way to make yourself marketable in the "real world."

Frank Doosey guards the Forensics stand.

German Club

Even though the German Club has only just begun it has already influenced it's members greatly. According to Kevin Ferretti, the club's president, "It has given me a chance to meet new friends and to enjoy German culture with others." The club has not been able to accomplish too much since this is the first year but it does "give students and faculty a chance to better appreciate the German Culture."

Horizon

The Horizon Yearbook is a valuable and unique organization. The Horizon truly benefits every York College student by preserving the memories of college life. This year, the Horizon is extra special because it is the 50th edition. According to the editor, Michelle Baum, "this year with our 50th edition, we will reflect on the past five decades of York College history and tradition, making the 1992 Horizon a treasured keepsake for the future." The Horizon yearbook staff is made of an interesting and diverse group of people who develop valuable friendships with each other that make the years spent at YCP all the more enjoyable.

International Students

The International Students Club is a very special organization at York College. The club helps the students to feel more at home by being with others in the same situation. The organization's president, Edward Muiruri says, "For many of us, it is home away from home. Many of us have become very close friends, relying and depending on each other for support, encouragement, and most of all a sense of belonging." In addition to helping these students adjust to a new environment, the organization also benefits other students at YCP. Edward notes that, "We have provided numerous fellow college students with first hand information about countries in which we come from."

I.V.C.F.

According to Traci McAlone, president, I.V.C.F. "means love, friendship, and a desire to learn more about God. A place where one can receive fellowship and guidance in their spiritual walk while at college." Traci states that it has helped her to learn more and strengthen her "relationship with God. It has provided a place of special friends and fellowship that one can always count on." I.V.C.F. has "provided a place where students can go on campus to receive fellowship and a better understanding of the scripture and how it applies to our lives."

Top to Bottom: Michelle Stockman, Stephanie Broyan, Eugenia Zeis, Nancy Fitzmier, Stephanie DeLong, Daryl Sterner, Jen Nagy, Adam Price, Tammy Vaughn, Traci McAlone, Julie Bowser, Yvette Richardson, Holly Kille.

Karate

According to Todd Verrecchia, president, "The York College Karate Club is a school-founded martial arts organization which uses a revolutionary system of light sparring to gain a hands-on knowledge for practical application." Todd also notes that physically, all of the members have become stronger and more adept. Mentally the club teaches discipline and focuses on relaxation/stress relief techniques." The Karate Club has "taught people to be able to defend themselves stressing a high-energy stress-relieving workout."

Clockwise: April Brewer works on her technique. Flexibility is a key element in Karate. Karate Club members show off their stuff.

Marketing

Here at York College, the American Marketing Association chapter is an organization devoted to broadening marketing students knowledge with guest speakers, company and plant tours, and films. Their goal is to offer opportunities to AMA members and marketing students to grow in their marketing carriers. AMA is led by Dawn Field as president, Lynn Rodi as Vice president, Abby Lessack as secretary, and Janel Jankowich as treasurer. Thanks go out to their awesome advisors Mark Blake and Rick Osborn.

Peer Advisors

The Peer Advisor program is definitely an asset for the students at York College. According to Sara Gailunas, "Peer advising means involvement. Not only do you involve yourself but you get to involve new students or "freshmen" students. To help the new students get a feel for college life is a great accomplishment." Because peer advising emphasizes involvement and friendship the program benefits both freshmen and upperclassmen.

1991-92 Peer Advisors: J. Agostino, M. Agostino, R. Altemose, R. Barron, M. Baum, M. Bednar, A. Bixler, J.D. Bower, B. Cannady, J. Civitarese, J. Clark, R. Conklin, J. Cook, T. Detweiler, N. Phi Sigma Pi

Phi Sigma Pi is an active campus organization that benefits both the college and the community. According to the organization's president, Irene Zug, "We have benefited the campus by offering several speakers and/or lectures. We have benefited the community by visiting Colonial Manor Nursing Home and participating in Adopt-a-Highway campaign." In addition to being a valuable campus organization, Phi Sigma Pi means a lot to its members. "It's a great group of brothers who have worked hard to keep things going."

Rec. Society

The Recreation Society is not all fun and games. Although the members do enjoy being part of the group, the organization also has a serious side. According to president Scott Charney, the Recreation Society means, "the student involved in the society has a support group that cares about his/her professional development in the field of recreation. By providing the students with a multitude within a fun-loving atmosphere." In addition to benefiting its members, the Rec. Society benefits the college and community. The society has strengthened the bond between YCP and the community in several ways. "We have benefited the college and community through our community oriented fund-raising activities."

Security

At York College one can feel the effects of a friendly and safe campus, although no college can offer a 100% guarantee of safety. The York College Security Department offers twenty-four hour security coverage which provides the kind of environment that is stimulating, supportive, and free from unnecessary risks. Every member of the department undergoes 48 hours of classroom training which consists of Security Awareness, College Policy and Procedures, Conflict Resolution, Apprehension Procedures, Report Writing, Witness and Victim Assistance, Crime Scene Awareness, Hands on Fire Extinguisher Training, CPR and Basic First Aid.

Ski Club

The Ski Club, according to Tina Kegerise, president and member for three years, "means a chance to have fun on the slopes with friends. A chance to get away from the school work awhile and a chance to get involved at YCP." She states that it has given "me a chance to develop my skills as a leader as well as my skiing skills. It has also been a benefit by meeting new friends and getting involved in campus activities. It has given students the opportunity to learn to ski, develop techniques, and discover new mountains to conquer."

S.N.A.P.

The Student Nurses Association is an active organization that is valuable to the college and the community in many ways. According to their president, Karen Toy, "the student nurses are very involved in promoting and facilitating optional health awareness both on campus and off." S.N.A.P. benefits the student nurses by giving them a chance to practice leadership skills and to make professional contacts that will be valuable to them after graduation. Karen says, "the organization means being with people who share a common bond."

S.E.A.

The Student Education Association is a very important organization to education majors. "It serves as an outlet to gain more information not offered in education classes. There are a lot of questions in every major. It's good to know there is an organization that can answer some of those questions," says Rachel Greeley, president. The SEA also tries to keep education majors informed about campus events as well as new trends in education. The speakers have benefited them immensely. Perhaps the most important thing they have done was to participate in YCP's Children's Theatre last year.

SEA members smile for the camera.

S.A.M.

The Society for the Advancement of Management is an organization that serves students involved in the business curriculum. Although SAM is open to all majors, the bulk of membership is composed of management, marketing, and accounting majors. President Kelly Peters states that SAM's goal is to provide its members with opportunities to become more involved with the business world. SAM sponsors various programs and activities, such as guest speakers and plant tours. In addition to academic activities, SAM participates in community service projects.

S.H.R.M.

The Society For Human Resource Management is an organization for those interested in learning more about the Personnel/Resources field. This national organization was formed in 1948 (formerly the American Society for Personnel Management) and encourages its members to develop and maintain competence in the rapidly changing human resource management field. As Monica Moedt states, membership in SHRM supplements classroom education with an "on the job" perspective.

Spartan

The Spartan is York College's newspaper but it is more than that for Holly Kriebel, the paper's editor. She writes, "The Spartan means being productive and creative. I feel I can experience the real world by getting everything together and composing a newspaper every week." The Spartan has benefited Holly in many ways. She states that it "gives me feeling of accomplishment." Holly notes that The Spartan is more widely read this year because of our new staff."

Student Senate

The Student Senate has done many things for the college. According to Rodney Altemose, president, it is "hard work, responsibility, good times, friendship, and most importantly fun." Being a member of the Senate has greatly benefited Rodney. He states that "the experience has polished my leadership and communication skills. It has made me understand that change is healthy and change takes time. Nothing happens overnight." The Senate has also benefited the college in a variety of ways. Rodney states that the Senate "is a working body for all YCP students. It's a voice for the students for improvements and a representation of all the students in all capacities of the college arena."

Tae Kwon Do

The Tae Kwon Do Club is an enriching experience that benefits its members both physically and mentally. The club's president, Jack Brommer, states that, "Each time the club meets, drills are performed which increases strength and flexibility. Also self-discipline is essential in advancing through different belt levels." As well as being personally beneficial, the club also benefits the community. Jack says, "The Tae Kwon Do Club helps develop better students, which benefits the college and community. Also, "we give presentations to local civic organizations which are very important with regards to community relations."

Clockwise: Scott Free works on his black belt. Tae Kwon Do members strut their stuff.

W.V.Y.C.

W.V.Y.C. is more than just a radio station, it is a creative learning experience. William Walton, president of W.V.Y.C. says, "the station took hold of me from day number one and hasn't let go. W.V.Y.C. allows certain creative forces to be expressed which is great for those who can't draw. You can be very creative with just speech or the use of sound in general which allows for many different expressions." Because W.V.Y.C.'s format is different from other stations on your FM dial, it offers a unique alternative to the college and community. "W.V.Y.C. holds great value to its members by giving them hands on experience in a broadcast situation. This enables the students to take their experiences with them when they get out into the real world."

York College Players

The Players, formally called the Theatre Co. is led by Kim Riberio who has been a member for three years. Kim states that the Players "means the freedom to express yourself in any way. It means entertaining others or helping with and getting satisfaction from a successful production. It's license to sing, dance, and be merry." Kim states that she "has learned all aspects of the theatre. I've learned you do not have to be on the stage to benefit from the theatre." The Players also benefits the college by giving "many people the exposure to the arts in which they would not normally get in a small town."

York College Chorale

The York College Chorale is a group of students from all different majors that come together to make music. Corey Rimel, a member of the Chorale notes that he has "learned to enjoy music from the baroque and classical era. Most of the music performed is in a foreign language." This past fall semester, the Chorale joined forces with the First Presbyterian Church's chamber choir to perform Vivaldi's Gloria. Having been a member of the group for quite some time, Corey feels that this group has "become the best musical group YCP has ever had."

The Orchestra and Chorale perform Vivaldi's Gloria.

York College Singers

The members of the Singers have been brought together because they share common interests. As Chad Harris, a member of the Singers says, "It is an organization in which its purpose is to bring people together in the expression of music and theatre." To its members, the organization acts as a release from college stresses. Chad says, "It has served as an outlet from typical college classes while the class is still worth one academic credit." In addition to being valuable to its members this organization also benefits the college and community.

Memories of a Friend

Richard Lepo of Norristown, Pennsylvania was one of the most unique persons one could ever meet. When I first met him in September 1990 I did not know what to think. Not only was I worried about starting college, I also wondered how my roommate and I would get along. As the days turned into weeks and weeks into months, I found him to be a true friend, not only to myself, but to everyone that he had met. Rich was always ready to lend a helping hand or to give you his opinion and advice on any matter that was troubling a friend. I can recall many times when we would talk sometimes with three or four friends late into the night about problems or grievances we had about college life. Rich would always tell us to hang tough and to enjoy what we have. The good memories that my friends and I share are too numerous to count and we will always hold them close to our hearts. No one really knows why or what happened but for whatever reason God called him. After it happened it was hard to believe that he was gone. Eventhough it has been awhile since his death all of us who knew him still feel a sense of loss that will probably never go away. Eventhough Rich has passed on I am sure he will live on in the memories of everyone who knew him.

Men's Basketball

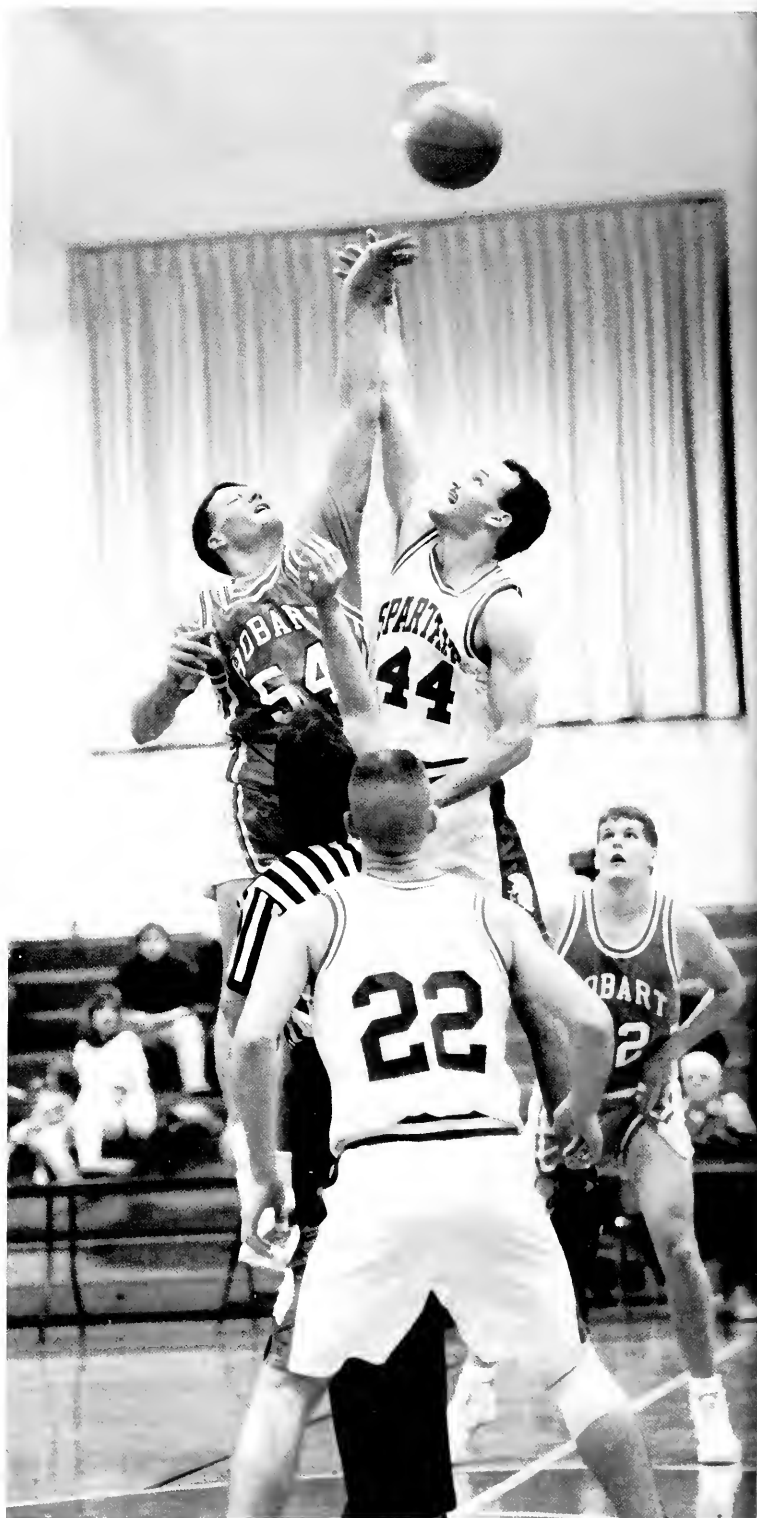

slamming it home!

The 1991-1992 Men's basketball team recorded a 14-12 record. The Capital Area Conference regular season record was 7-5. The Spartans beat Goucher in the quarterfinals and were eliminated by Marymount in the semifinals of the CAC tournament.

After starting the season by losing the first three games, the Spartans continued to improve throughout the year. Quality wins at the end of the season against Dickinson and Susquehanna were examples of the team's improvement. Since the Spartans have only one senior, Ray Deegan, their future is looking bright.

For the second straight year, Jeff Mann made the All-Conference First Team. Jeff averaged 17.8 points per game. Jeff eclipsed the 1,000 point barrier against Susquehanna.

Ray Deegan was selected to the All-Conference Second Team. Ray had an outstanding season, scoring 16.0 points per game and 6.8 rebound.

Women's Basketball

jumping for it!

The first half of the basketball season found the Lady Spartans facing an uphill battle against injuries and the loss of veteran players. Despite a record of 2-5 midway through the season, a team highlight occurred when Judy James became YCP's first junior to reach the 1000 point mark. With her 1000th point coming from the foul line with only 19 seconds left on the clock, her achievement added extra excitement to the game.

Back to full strength during the second half of the season, the team had all ten players and a new line up on the court. Seeded third going into the CAC playoffs, the Lady Spartans easily progressed into the second round. Facing Mary Washington College, the team gave their best performance of the season playing to their full potential before being defeated. Under the leadership of team captains Damaris Ramos and Judy James the team was able to reach its true potential.

York College fielded a cross country team for the first time in six years this past season. Although the team had run a limited schedule during 1989 and 1990, it was done on a club basis. The men sponsored a full team with eleven runners finishing the season. The women had only a partial team with three runners finishing the season.

The highlight of the season was the men's team's third place finish in the conference championship meet. Sophomore Chris Woletz, junior Chris White and senior Tracey Reguera were all rewarded All-Conference honors for their top performances.

Sophomore Chris Woletz, from Paramus, NJ, was selected the most valuable member of the York College cross country team for the 1991 season.

The York College Soccer team had its first winning season since 1982. After three disappointing losses in the beginning of the season, the team came back to win an astonishing Nine in a row.

The team finished second in the regular season of the Capital Atlantic Conference, and went on to the semi-finals of the CAC tournament, where the season came to an end with a loss to St. Mary's.

Three players were named to the First Team All-conference; junior Damon Carpitella (defense), sophomore Eric Stamp (goal keeper), and freshman Ban Ossei-Akoannor (line). Freshman Adam Doutrich (halfback) was named to the Second Team All-conference. Co-captain Matt Herrington (midfielder) was named this year's most valuable player.

SOFTBALL

making the out!

The Highlight of the season was beating Catholic University on April 11, 1992 to advance into the first appearance in the Capital Athletic Conference Championship Game against Mary Washington College. Reaching the Championship Game enabled the team to complete the CAC team goal for the season.

This year's squad was the largest since Coach Wise became the softball coach. She had 21 players on her squad this year. The team was comprised of only seven returning players. The Captains were the three returning seniors: Maryann Buelow, Vicki Jones, and Chrissy Zambriski. Do to the large number of errors committed as a team, they failed to reach our full potential and their goal for a winning record and only finished with seven wins. The overall record was 7 wins and 12 losses, with a 4 win 4 loss record in the CAC. The softball team ended up second in the conference.

Six players were named to the CAC All-Conference teams. They were Vicki Jones, Chrissy Zambriski, and Mary Rapelye on the first team. The second team had Maryann Buelow, Krista Carvell, and Krista Giuliana. This years team MVP went to Catcher Maryann Buelow.

The 1992 Softball Team.

Swimming

making a splash!

The Men's Swim team ended their season with thirteen members. Unfortunately the team will be losing three of its members to graduation this year. It may not have been a winning season for the men's team, but compared to last year's team, the team improved its record from a 2 and 7 to a 3 and 6 this season.

Sophomore Shane Stell broke three school records this season. He broke the records for the 50 Free, 100 Free, and 200 Free Style. The men moved up from last year's 6th place to 5th place this year.

The Women's Swim team started the season with only one way to go and that was up. The team picked up seven new swimmers to take the number of members to 14 at the end of the season.

Captain Gretta Goodman shattered the school record for the 100 Backstroke, which she already held. The ladies improved their placement by moving from last place (7th) last season to 5th place this season.

WOMEN'S TENNIS

swinging into action!

The women's tennis team recorded on of the best records in the school's history with a dual meet record of 7-4. This is a considerable improvement from last year's 3-7 record. The dual meet record for conference play was also bettered by one from lastyear; the conference record for 1991-92 was 2-2. In the second yar in the Capital Athletic Conference, the Lady Spartans improved their position in the Conference Championships also. The Spartans placed third behind Catholic University and Mary Washington University. This is noteworthy as YCP last year was tied with St. Mary's for last place. In addition, York won all of the first round matches except two, and the two who lost in the first round ended up winning the consolation finals. However, Mary Washington, the defending Division III National Champions and defending CAC Champions, consequently walked away from the tournament again with a total of 54 points.

VOLLEYBALL

serving up a winning season

The 1991 Volleyball team began it's season on September 5th at Elizabethtown College. The team participated in three tournaments this season. They were the Susquehanna Tournament where they placed second out of ten teams, the Juniata Tournament they left with a ninth out of eighteen placement, and placing fifth out of ten at the Western Maryland Tournament. The team placed second in the Capital Athletic Conference Championships. The teams league record was 5-1. The caliber of the team can be seen in the number of team records that they broke. The team broke twenty five team records this season. The so called "Road Warriors" of the York College Volleyball team looks like it will be a rather formidable team during the 1992 season, reason being they are not loosing any one to graduation this year.

WRESTLING *pinning down* **a season**

The 1991-92 York College wrestling season officially started on Wednesday October 23rd with twenty-four students coming out for the team. Twenty-one of these twenty-four students finished the season in good standing.

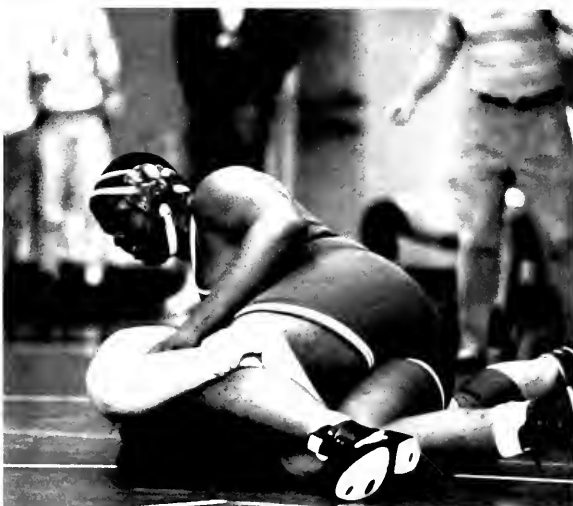

The wrestling team completed it's best season in four years with a 7 and 8 record. The team came on strong at the end of the season, winning five of the last seven matches.

This was the team's second season as a member of the Metropolitan Wrestling Conference. The team finished seventh out of fourteen teams and had five wrestlers place in the top six of their weight class. Based on his performance in the conference championships, Bob Linker was chosen as a "wild card" selection by the conference coaches to participate in the 1992 NCAA Division III Wrestling Championship. He finished the tournament with a 2-2 record, but did not place at the championship. Also, for the second year in a row Bob Linker was selected as the Most Valuable Player of the wrestling team.

"Our sorority was founded nearly a century ago by a mere eight women. Fifty years from now, I envision the Gamma Iota Chapter of Alpha Sigma Tau to have maintained its stature of the highest membership enrollment of any sorority on the York College campus with over 100 collegiate sisters. As we do today, AΣT will continue to know the 'quality of sisterhood...' and foster a spirit of loyal friendship within our group. exploriantation begins **Welcome Class of 1995!**

If you think parking is a problem during classes, you should have been on campus Sunday, September 1st. The steady stream of jammed-packed cars, trucks, vans and trailers began in the morning and stretched into the early afternoon as YCP's newest freshmen class arrived. Amid a sea of blue orientation and red Ask-Me-About-It shirts, 831 students and their families undertook the task of carrying, hauling and dragging all the essentials into the dormitories.

Under near-perfect weather, the freshmen set out to explore their new surroundings. President Waldner hosted a family picnic to greet everyone. the buffet style meal was followed by a family orientation, giving students and their relatives the chance to ask any questions and put aside their last minute concerns. With all the basics taken care of, it was the time the freshmen had eagerly anticipated—INDEPENDENCE! The tears, hugs and good-bys officially marked the beginning of their "college experience".

York College's Peer Advising program allowed the freshmen to meet an upperclass "buddy" as well as other students within their major on Sunday evening. The program continues year round as peer advisors introduce the freshmen to their faculty advisor, address their questions and keep a watchful eye on them as they go through their first year of college.

The freshmen's first night on campus also gave them the facts about alcohol at *Kegs, Kicks & Colleges*, an entertaining yet informative talk on college drinking. The *Wild Video Dance Party* wrapped up the night as students danced to the

top tunes while life-sized videos aired in a nightclub atmosphere.

Monday morning, freshmen attended seminars to help them improve their study habits and to get tips on effective writing style. Lightening up the day was Bob Schaeffer, who hits YCP every year as "Mr. Simon Sez". That evening, freshmen received their first exposure to the campus comedy and musical favorites—*Change of Pace*.

Tuesday the pre-class activities continued as peer advisors introduced the freshmen to their faculty advisors. As night fell, it was time to gamble! Buechel lounge was transformed as *Casino Night* took over. With peer advisors as dealers and bankers, students tried their luck at the games of chance. at the end of the evening, those who met with success could bid on prizes ranging from walkmans to a color television.

As classes began on Thursday September 5th, the freshmen began to experience the academic side of college. That Sunday, exploriantation officially ended with the final scheduled peer advising meeting. This gave the freshmen the opportunity to ask any questions and problems they may have encountered in the classroom.

Thanks to the exploriantation program, the freshmen headed into their first full week of college prepared and ready to face new challenges. And although they say there's no place like home, York College comes pretty close!

Jeff & Bob's

Excellent Adventure

Just when you thought it was safe to go back into the Den-*Change of Pace* returns! York College's favorite dynamic duo hit the Spart's Den on Monday September 2nd. Nearly all returning students were *Change of Pace* veterans and knew what they were in for. The freshmen, however, looked a little out of place as everyone around them sang, cheered and clapped along.

Getting into their routine, students were on the lookout for the notorious Land Sharks! Fierce predators, they circle the female species and go in for the kill. Taking us back to yesteryear and the glory days of our childhood, Jeff and Bob performed a medley of television tunes. Echoing through the Den were the hauntingly familiar songs from

Gilligan's Island, the Brady Bunch, the Flintstones, the Addams Family and the Jetsons.

Mixing comedy and music in a most unique way, *Change of Pace* had trouble ending their show as the crowd demanded encore after encore. To help out those bewildered first-timers, here's a run down of the rules. Rule #1- When you hear the social music, put your drinks on your head and prepare for an unusual toast. Rule #2- Watch your words or you'll be more than a pheasant plucker's son! Rule #3- The less you want to be a *Change of Pace* victim, the more likely you are to be targeted. The last and most important bit of advice is, when in doubt, jump right in and you too will become a seasoned veteran.

wall of velcro

Talk About a Sticky Situation!

Have you ever felt like you were bouncing off the walls? Well, you would be out of luck on Wednesday, September 25th. No one was bouncing off of anything as Pepsi-Cola brought its Wall of Velcro to campus.

Ten feet in height and 100% velcro, the wall was a formidable opponent to those who were brave enough to tackle it. Donning velcro body suits and helmets, participants sprung from a mini-trampoline onto the wall. With the assistance of spotters, they found themselves stuck to the wall. Some students managed to jump over seven

feet high. To reward their sense of adventure, all human flies received a polaroid of their flight.

The Pepsi Wall of Velcro tour started in March of 1990 and has been spotted at colleges nationwide. Sponsored in conjunction with Service America, each school is given a \$250 donation to their local chapter of Students Against Driving Drunk. The Wall is a means to show Pepsi's commitment to responsible drinking while also providing students with an enjoyable and certainly memorable activity.

Campus Spotlights Alcohol Awareness

Alcohol Awareness Week 1991 kicked off on Sunday, October 13th. An annual event sponsored by the Drug and Alcohol Wellness Network (D.A.W.N.) and the Student Affairs office, the week was crammed with displays, exhibits and events to further educate the campus community. Offering all aspects of information on alcohol and its effects, this program promoted responsible adult decisions making among the student body.

This year over 20 YCP organizations took part. Some of the events included lectures, skits and

films. In addition, game shows, a root beer chug-off, the Cellar's Party to Survive and the ever popular tricycle obstacle course rounded out the week's agenda. Congratulations go out to the top three winners of the week, Phi Kappa Epsilon, Sigma Delta Sigma and Phi Mu, as well as to all organizations that participated in any of the worthy events. The Iosue Legacy

Former York College President Robert Iosue and his wife Christina received honorary degrees on October 17th, recognizing their lasting legacy to the campus. Faculty, students, friends and family gathered in the Life Sciences Theater to pay tribute to the advancement York College achieved during the past fifteen years.

Dr. Carol Iannone, a New York University professor and administrator, delivered the convocation address. In her remarks she cited Dr. Iosue as instrumental in insuring students an above average, yet economical, education during his presidency.

Moving from the theater to the Student Union, the celebration continued with the garden outside Brougner Chapel being named in Christina Iosue's honor. The unveiling of the Robert V. Iosue Student Union highlighted the ceremony. Accompanying their other honors, were a replica of the plaque inside

the Student Union and a painting of the buildings exterior appearance.

In addition to being a favorite among the student body, Dr. Iosue is credited with reshaping YCP's mind-set, giving it the respected reputation it has today. Although he expected a lot from his students, Dr. Iosue gave in return. As well as teaching a mathematics course every semester, the Iosues were more often than not, spotted at campus events and activities. In the fifteen years of his presidency the physical size and scope of YCP expanded as everything from a parking garage to a Business Administration building were added.

Dr. Iosue stated his pride in York College's faculty, staff and students and their collective achievements as well as his wishes for a future of further growth. It was only fitting that the campus set aside a day to celebrate the legacy Dr. and Mrs. Iosue generously left behind.

Menagerie of Men

The success of last year's Mr. YCP contest helped to make the 1991 version an event to remember! A dozen hopeful males competed to become the next Mr. YCP on November 5th at 10pm in the Johnson Dining Hall.

Elizabeth Solovey, Ms. YCP 1991, hosted the ceremonies as contestants squared off in swimwear, formalwear, interview and talent categories. As proof of the diversity of York College male talent, activities from lip syncs to musical performances and dramatic readings graced the stage.

As the evening progressed, the field of men was narrowed down to five finalists who had to answer one last question. Last year's winner, Jim Ross, passed on the crown as the judges' decisions and the newest Mr. YCP was announced. Congratulations go out to second runner up Ken McClure, first runner up Matt Markle and especially to Mr. YCP himself--Leon Thornton, representing Phi Kappa Psi. With the completion of this year's pageant, the tradition of the Mr. YCP contest continues.

...and on the twelfth night

A most unconventional version of Shakespeare's comedy *Twelfth Night* took place in the Life Sciences Theater November 6-9th. Under the direction of Dr. McGhee and student stage managers Lori Weaver and Beth Shreffler, the production received a modern day twist.

Set in a country club atmosphere, the play is filled with love triangles. One of the main characters, Viola (Jen Bell) disguises herself in male attire and becomes Cesario, a page for the Duke of Arsino (Keith Engle). During her masquerade, Viola/Cesario falls in love with her boss the Duke. Meanwhile, the Duke has fallen for Olivia (Diane Shatto) and Olivia believes she has found her "man"--Cesario.

Out of this complex maze of potential relationships comes a great deal of humor. From this battle of illusion versus reality, Shakespeare, with the help of some talented YCP students, teaches a lesson in the masks that people wear.

Dr. and Mrs. Waldner hosted their first York College Open House on Monday evening, December 16, 1991. With the holiday season and final exams approaching, students were invited to drop by the president's residence between 8 and 11 pm to socialize and take a few otherwise hectic minutes to relax. As always, the buffet table proved to be a favorite spot, providing hot cocoa, doughnuts and assorted cookies. Surrounded by festive decorations and a light-hearted atmosphere, Dr. and Mrs. Waldner got everyone into the holiday spirit.

strange case of deja vu **Hey, These Guys Look Familiar!**

On Monday, January 27th, most of the students packed into the Spart's Den had a strange sensation of familiarity. The cause of this phenomenon was the repeat performance of the musical/comedy group *Change of Pace*.

Having entertained York College in September 1991 (see pages 146-47), the popularity of Bob and Jeff's antics warranted a second appearance during this academic year. Many of the freshmen who had ex-

perienced the fall performance were now able to take part and sing along to their favorite *Change of Pace* tunes.

A visit by Bob and Jeff just would not be complete without the ever popular land sharks, pheasant pluckers and Gilligan. As usual the talented duo received the approval of the student body and left the crowd wondering when they would again receive the opportunity to be entertained by *Change of Pace*.

Competition was heated as York College and Penn State York squared off in Sex: the Game Show on Wednesday, February 19, 1992. Organized by Planned Parenthood of Central Pennsylvania, the event was held in conjunction with National Condom Week (February 14-21, 1992).

The two colleges faced off in a Family Feud format, covering subjects such as anatomy, contraception, HIV/AIDS, reproductive health care and sexually transmitted diseases. The final show down pitted

YCP and PSU's best teams against each other for a percentage of the night's earnings.

The much publicized game show got students involved as surveys were distributed on the two campuses ahead of time to personalize some of the questions. With media coverage, emcee Mark Feather from HOT 105.7, and a YCP-PSU rivalry, the event not only received a large turn-out, but addressed a serious topic in an unusual and entertaining manner.

Monday, February 24th and Tuesday, February 25th witnessed the return of Security Awareness Days. On Monday, a safety oriented bazaar took place in Alumni Hall, as vendors, police and campus security manned displays and addressed student concerns. *Citizens Against Crime* completed the evenings' events as they presented to an audience of one hundred their two discussions on personal safety.

York College security provided safety information and distributed whistles printed with campus security's extension numbers and beeper number. The popularity of the free whistles (compliments of the Student Senate) was evident as

the last one was given out in early afternoon. Wrapping up Security Days was the KEEP OUT OF JEOPARDY Game Show. Eight teams tested their security knowledge as they encountered Daily Doubles and remembered to answer in the form of a question. The winners (Phi Mu) received \$100 in cash and personal fire extinguishers.

Organized by the Student Senate, YCP Security and the Operations Department, the events received positive feedback and the 1992 Security Days were declared a complete success. Both entertaining and informative, February 24th and 25th gave everyone a chance to be smart and safe!

Amid a standing-room only crowd in the Johnson Dining Hall, twelve young women competed for the title of Ms. YCP 1992. The March 25th contest was composed of talent, beachwear and formalwear categories.

After meeting the contestants, Mr. YCP himself, a.k.a. Leon Thornton, took over as host for the evening. With the talent competition underway, one could observe live vocal performances, lip-synchs, dance routines, musical recitals and poetry readings. The ladies got an early start to their summer as they entered the beachwear portion of the evening. Wrapping up the overall contest was the formal wear section.

The job of narrowing the field to five finalists belonged to judges

Pat Reape, Brett Adams and Richard Achtzehn. The five finalists had their last opportunity to impress the judges during the interview session, with questions ranging from "what First Lady would you most like to be?" to "what element best describes you?". As the judges cast their votes for the new Ms. YCP, Brian Yeandle provided the musical entertainment.

With the help of Liz Solovey, Ms. YCP 1991, Chrissy Greaney (Alpha Sigma Tau) was crowned the reigning queen, followed by first runner-up Georgia Monahan (Omega Chi), second runner-up Heather Jones (Zeta Beta Tau), third runner-up Janel Jankovich (Phi Sigma Sigma) and fourth runner-up Mary Rapelye (Delta Phi Epsilon). Nearby, Sig Ep manned the dunk tank as people took a chance at sending their favorite brother in the water. Inside the gym, clubs and organizations sponsored stands, selling everything from soft pretzels to stir fry. Game stands provided further entertainment, as did the print a headline and photo badge booths.

Graduation

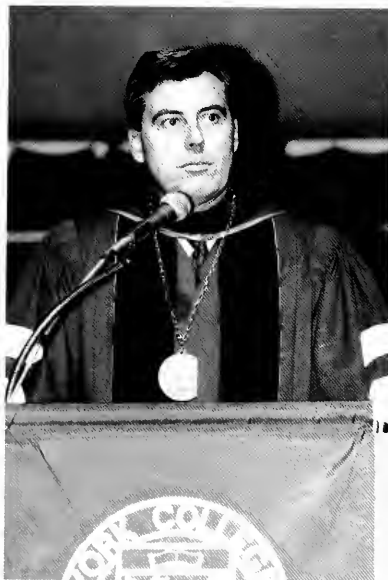

The first graduation ceremony at York Junior College's new campus occurred at the conclusion of the 1960-61 school year.

A 1980 graduate proudly displays her commencement award.

The top verse represents the current Alma Mater, which was composed by the 1969 Concert Choir, and is sung at commencement ceremonies. The bottom verse was the alma mater used by York Junior College.

Dear Graduates of the Class of 1992,

Presidential Remarks

Dr. Waldner delivers his first commencement address as president of York College.

A soon-to-be alumnus receives Dr. Waldner's best wishes for a rewarding future.

It seems odd to be saying "farewell" to any members of the York College Community, when I was just saying hello a few months ago!

More than farewell, though, I want to say thank you to the graduates, for exemplifying so well the academic and personal values that undergird York College and also for welcoming me and my family so warmly. Almost all of you will be going into new work or school environments in the next months and weeks. Things will seem confusing at first, and you will probably find yourself yearning for familiar surroundings and faces. I hope you find the friendliness and good will that I have experienced during my "newcomer" year at York College. If you do, you will be as thankful to your colleagues I am to you.

Colleges are human institutions designed to develop human potential in skill, understanding and appreciation. Having been part of York College on a day-to-day basis, and grown as a person in its environment, York College has become part of you, just as you are a permanent member of the College family. York College is your alma mater. Wherever the future leads you and however busy your days, you will always be welcome on this campus when time and circumstances permit you to spend time with us.

The Trustees, faculty, staff and returning students join with me in wishing you great success and happiness in the future. We shall watch your progress with interest and look forward to hearing of your accomplishments.

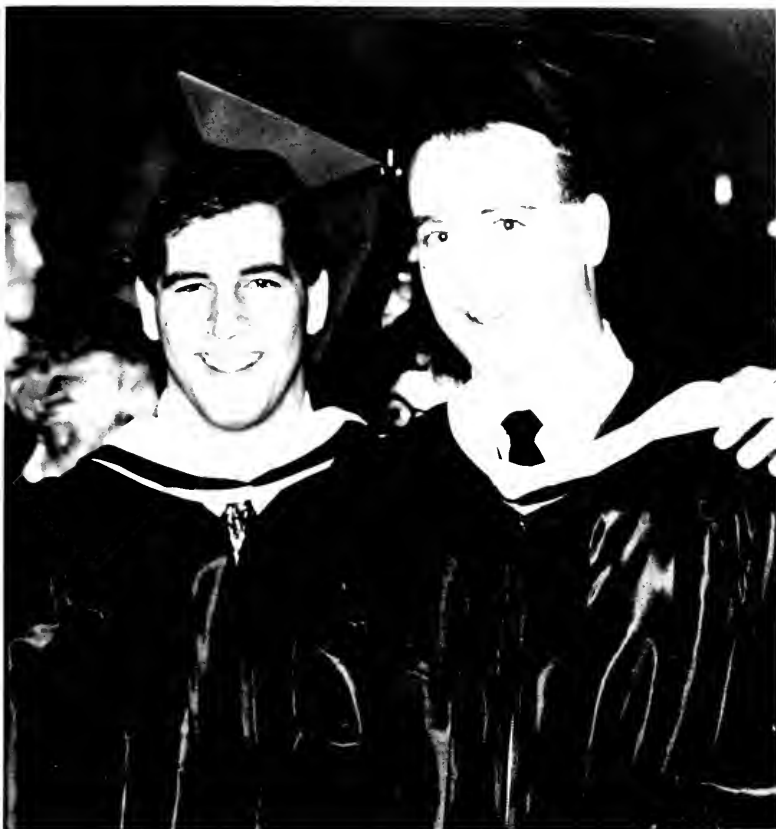

Farewell, for now, to the Class of 1992.

Sincerely,

George W. Waldner

Presenting YCP's Newest Alumni

On December 20, 1991 York College welcomed two hundred seventy-five new alumni as the December class graduated during ceremonies in Wolf Gymnasium at 10:30 am. Receiving an honorary laws degree was the Honorable Emanuel A. Cassimatis, Judge of the Court of Common Pleas of York County.

Dr. Bruce Smith, YCP's Biology Department Chairman was awarded the York College Alumni Association's Professional Service and Leadership Award. Another York College faculty member, Dr. Florence Ames, was chosen to deliver the commencement address by the graduating class.

Following the ceremonies, graduates and their guests were treated to a luncheon as York College congratulated its newest alumni.

The Class of 1992

York College celebrated its newest graduating class during spring commencement ceremonies on Saturday, May 16th. Escaping the threat of rain, the Class of 1992 received their degrees from Board of Trustees Chairman Donn I. Cohen on the Campbell Hall mall.

Following President Waldner's welcome and senior class president John Buzzzone's opening remarks, the distinguished alumnus award was presented. This year's recipient was H. Douglas Campbell, Jr. President Waldner then bestowed honorary degrees upon Edward J. Brady and Arthur A. Hartman. Brady, is the founder of the Alloy Rods Corporation in York and is a well-respected philanthropist. Hartman, a diplomat, has served as Ambassador to France and the Soviet Union. Having earned the U.S. State Department's distinguished service award, Hartman now resides and works in Washington, D.C. Hartman delivered the commencement address, urging members of the graduating class to never stop the learning process and to serve their fellow man.

As the morning drew to a close, YCP's newest alumni officially embarked on their post-college lives. Although leaving York College behind, the Class of 1992 took with them many cherished memories of the education they received at YCP.

Commencement activities took place on the lawn outside Campbell Hall.

The Tradition Continues...

A collage of York Junior College publications, circa 1961, is pictured above.

In 1957, adult evening classes were offered for the first time at York Junior College.

A typical advertisement from the 1944 Tower yearbook demonstrates the changes of the past fifty years. Note the ever-popular phonograph records and the five digit phone number.

Right: During the war in Iraq, Saddam Hussein's forces ignited hundreds of oil wells in Kuwait. Smoke belched from the torched wells for many months afterwards. Satellite photos showed a black-grey plume from Kuwait as far south as the Arabian Sea—equal to the distance from Manhattan to the tip of Florida.

Below: Arnold Schwarzenegger, the body-building, action-adventurer actor, scored a big hit in the successful movie *Terminator 2: Judgement Day*. With a \$90 million price tag, it was the most expensive movie ever made.

Above: The Group of Seven industrial democracies (known as G-7) held an economic summit that dealt with a wide range of issues—from world economic policy to international trade. Gathered at the Tower of London from left to right are: French President Mitterrand, President Bush, Italian Premier Andreotti, EC President Dalors, Japanese Prime Minister Kaifu, British Prime Minister Major, Canadian Prime Minister Mulroney and German Chancellor Kohl. At right is Field Marshall Sir John Stanier, Constable of the Tower.

Right: Magic Johnson, the famed Los Angeles Laker basketball star, announced he was infected with the HIV virus. His presence on the Olympic "Dream Team" caused several other nations to refuse to play the American team in Barcelona.

Far Right: Civil war broke out in Yugoslavia as the nation of six divergent republics unraveled. Two of the republics, Croatia and Slovenia, declared independence in June 1991. The death of former President Tito in 1980 and the recent crumbling of Communism set loose the forces clamoring for ethnic self-determination.

World Glance

Below: Vice President Dan Quayle, often seen as a liability to the president, took on *Murphy Brown* in May of 1992. Criticizing the television series as glamourizing single motherhood, Quayle began the reelection campaign with a call for a return to strong family values.

Above: After nearly seven years as a hostage, Terry Anderson was released on December 4, 1991. Anderson, the longest held American hostage, spent 2,455 days as a prisoner in Lebanon. He is shown here arriving in Wiesbaden, Germany being greeted by his sister Peggy Say.

Right: Amy Grant has sold over ten million records worldwide. She recently hit the pop charts with her hugely successful album *Heart in Motion*. She wrote or cowrote all but one of the songs.

1991. History in the Making

The year 1991 got off to an enormous start as the world waited for the United Nation's deadline for **Iraq** to leave Kuwait to expire. On January 17th, the U.S. and its allies launched 5 weeks of air strikes. February 24th, the ground war began. American troop and firepower superiority shredded Saddam Hussein's army in only 3 days. The final toll: 148 American & an estimated 100,000 Iraqi casualties. The returning **Desert Storm** heroes were greeted with parades and a sea of yellow ribbons. But the victory was not without its downsides. Almost 25% of U.S. combat deaths were a result of friendly fire. Saddam remained in power and the world was unsure of Iraq's nuclear weapon capabilities.

On January 1, 1991, the Soviet Union was plagued by economic and ethnic troubles, yet remained a superpower. On January 1, 1992, the Soviet Union no longer existed. The 74 year Soviet experiment began to unravel on August 19th when hard-liners took Mikhail Gorbachev prisoner while he was vacationing in the Crimea. **Boris Yeltsin** used the opportunity to rally the Russian people. Upon Gorbachev's August 21st return to Moscow, Yeltsin was the central power. Gorbachev resigned as head of the Communist Party 3 days later, then the Baltic States announced their independence followed shortly by the remaining twelve republics.

Supreme Court nominee **Clarence Thomas** was on the brink of confirmation when **Anita Hill**, a University of Oklahoma professor, accused him of sexual harassment when she worked for him 10 years earlier. The widely broadcast and closely followed hearings kept the nation riveted to their televisions. Who was telling the truth? According to the polls, Thomas was and the Senate sent him to the bench by a vote of 52-48.

Jesse Turner, Terry Waite, Thomas Sutherland, Joseph Cicippio, Alann Steen. One by one the American hostages were released. Finally, after a 2,445 days, **Terry Anderson** gained his freedom on December 4th, marking the end to the captivity of American hostages in Lebanon.

Economic woes affected the U.S. public in 1991 as **unemployment** stood at 6.8% in November and several industrial giants announced major layoffs. The deficit approached \$400 billion and the Federal Reserve dropped its discount rates to their lowest levels since 1964. As the recession/depression debate continued, President Bush watched as his popularity plummeted.

On March 31st, the Warsaw Pact dissolved its military component. Bush and

Gorbachev reduced long range nuclear weapons on July 31st. Russia expressed an interest in joining NATO. For anyone 45 years old or younger, 1991 presented the first moments of your life without a **Cold War**.

The arrival of the AIDS epidemic marked its tenth anniversary with 200,000 Americans and 8 million people infected worldwide. The disease received front page headlines from basketball great **Magic Johnson** and 23 year old **Kimberly Bergalis** who contracted AIDS from her dentist. His illness proved that no one was safe and hers led the call for mandatory testing of health professionals.

The term "House of Horrors" took on new meaning when unemployed Milwaukee resident, **Jeffrey Dahmer**, admitted to killing 17 males. Eleven chopped bodies, 4 heads and 7 acid-washed skulls were discovered within in his apartment.

With U.S. prodding, **Israelis** and **Arabs** met to try and settle their disputes. The first round occurred in Madrid and even included the Palestinians. The second round in Washington, D.C. produced little results to the surprise of no one.

Amateur photographer George Holliday provided the nation with the most compelling videotape of the 1991. Caught in the act was a group of Los Angeles policemen assaulting motorist **Rodney King**. They claimed King led them on a 100 m.p.h. chase and attacked them, yet the video proved them wrong. Eventually, 4 officers were indicted and LA chief of police Daryl Gates agreed to resign in 1992.

With the onslaught of the Gulf War, 1991 was ushered in with a bang and left just as dramatically with the demolition of the USSR. In between these two remarkable events other significant happenings occurred, making 1991 quite a year of history.

Curry House Girls, Thanks for giving me the best years. Remember all the house functions! Love, Bonny

When I sat down to write my "farewell," I was unsure how to incorporate just how I feel and how I felt about the Horizon Yearbook and York College. So, here goes...

I cannot and will not say farewell because part of me, heart and soul is embedded in these pages, three years of memories-of friends, real friends, the kind that when I made a fool of myself did not think the job permanent. During the years, I have known many gifts, gifts of friendship made while putting together these pages to bring back recollections to us when our memories wane.

The education that this yearbook afforded me was not what I gave thought to when I decided to become involved, but today I count the numerous rewards and to that I leave this message as a suggestion to anyone that at one time or another has ever wondered if going to college was the right thing.

"Education is a companion which no misfortune can decrease, no crime destroy, no enemy alienate, no despotism enslave; at home a friend, abroad an introduction, in solitude a solace, in society an ornament. It chastens vice, guides virtue, and gives grace and government to genius. Education may cost financial sacrifices and mental pain, but in both money and life values it will repay every cost one hundred fold." - anonymous

I have many people that deserve recognition here, but because of space let me say "THANK YOU" if I should forget anyone.

First and for most, Laurie Reed, probably the best advisor and friend that one could ever have. Thanks for being there. Dr. Iosue, Dr. Waldner, Dean Merkle, Dr. Mussano, Dr. DeMeester, and Carla Eisenhower thank you for being behind Michelle and myself over the years. To Neil Weidman, representative for Davor Photography, thanks for happily handling my constant calls and those "infamous lists." And of course I can not forget our Herff Jones representative, Al Oussoren. Al thanks for helping us put this book together and I am sorry for torturing you so much this year. It has been fun! I must also thank the staffs for the 1990, '91, & '92 yearbooks for putting your time and energy into this book, without you the book would not be where it is today. And last and least (just kidding!!), Michelle Baum, editor of the Horizon '90, '91, & '92, we've finally made it and the last yearbook for us is finished. Thanks for having me as your assistant editor for three years. We've had the sun and we've had the rain and now we have the rainbow.

To the successor may you find the yearbook as rewarding as I did may your life be enriched by all the pluses and minuses that this challenge brings. Good Luck

a.k.a. Spartan Slasher!

The Bashful
1993 Editor!

I'll never forget the office!!

Well, this is it!!! As unbelievable as it sounds, I am at a loss for words. Four years ago, I joined the Horizon staff as an unsure freshman and found myself being trained for the editorship. Three books later, I have experienced more problems, stress and pressure than I ever believed could result from a yearbook. I **WOULD NOT HAVE TRADED ONE MOMENT OF IT!** In the midst of the deadlines and chaos, I made the best friends and matured as a person.

Everyone who belonged to the Horizon family while I was the editor deserves applause. Having inherited a \$7,000 debt from the previous editor, we not only eliminated the deficit but produced the highest quality yearbooks ever at York College. Along the way, we encountered more than our share of troubles, but through it all we remained a team. A wide diversity of majors and personalities came together, forged lasting friendships and turned the Horizon around. I offer my sincerest thanks to all for their dedication and support. I can truly say that I will never forget my years as Horizon editor.

Reflecting on the last four years, some specific memories surface:

- ✧ E.T. Phone Home!
- ✧ The year Albert Einstein took over the office
- ✧ The Halloween Havoc costume dance
- ✧ The flood crew--rollin', rollin', rollin'
- ✧ Darkroom Developers Unite
- ✧ Spartan Slashing--it's so easy to do!
- ✧ The party of all parties-- the infamous Blow Out Bash. The Holiday Inn is still recovering!
- ✧ Rep #1 (Craig), Rep #2 (Ed), Rep #3 (Al)
- ✧ Win, Lose or Draw office parties
- ✧ A clean desk is a sure sign of a sick mind
- ✧ Falling off of sofas, chairs and barstools
- ✧ Office chess tournaments
- ✧ CCM parties at I-1; leprachauns & *Secrets*

And it would not have been the same without my section heads from this past year. You were a unique group to say the least!

Darcy- Margarita & Wing Nights!!! Jewelry Store Window Shopping, Rusty Nail Beer, See Ya...Wouldn't Want To Be Ya!

Faith- Thanks for all the sensible advice, cow collecting, yes, you actually had a staff, I think I left my keys at the Jenny Lind house, sure you can straighten out my desk!

Katie- Keep those car doors shut on Route 30, Don't forget those restoration pills, Lifetime member of the Firepole Fan Club...Photography Will Never Be The Same!

Corey- Have we learned a lot or what!?!? Apple IIc to good ole Herman, Aren't you late for class? the balloon girl, yes you were involved in the 9th grade photo fiasco, but remember we went out in style!

Mark- Spartan slashing cohort, I'm glad you are doing a REAL internship, Hersheypark Happy! Think of all the quarters you've wasted!

Chad- Thanks for the "boss lady" nickname, Do you feel Lucky? Jack and Jill went up the hill..., Down with hockey, hey, I just filled the cookie tin!

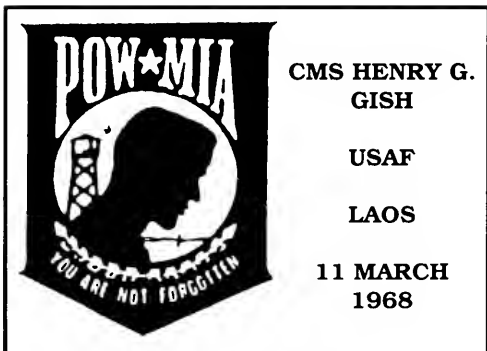

John- The fall semester no-show award!, my drinking buddy, if all else fails, NIXIT!, Thanks for the "affairs", table slave, after party worries, hey, my car's the silver one!

Nina- I think your pager went off, is Craig around, Watch out for that ring!, Wasn't organizations fun? Do I hear wedding bells?

Bree- 305 Penn to I-1 CCM, hey, keeping the books is a piece of cake, Down with the Brady Bunch, yes, I'd like to see photos of your nephews, Hannah Butter, Care for a pop-tart? nap time!, how did we keep track of all those men?

The yearbook aside, I'd like to thank Randy, Chris, Laurie, Luanne, Tania, Rodney, Theresa, Wendy, Diana, Guy and William Graham Sumner for adding to the good times.
Live Long & Prosper,

Michelle Baum

The Importance of Little Things in Building Success

A thousand or more years ago, a wise man wrote these words: "Little things are little things, but faithfulness, in little things, is something great."

The A.B.C.'s of your infancy were little things. The doing of them led you up to reading to English literature and even to Latin and Greek. Figures, addition, subtraction, multiplication, and division, only fitted you for greater things, algebra and geometry.

Little things, in themselves, but how much they did mean to you.

Recently, a gentleman addressed a large audience in the city of Boston, composed of cultured people, and held their undivided attention for two hours. After the lecture many of the hearers went up to congratulate the speaker. A gentleman said to him, "From what university did you graduate?" He replied, "From the Fireside University." "And where is that, I never heard of it." He replied, "I was born and raised in the Middle West. At fourteen years of age, with scarcely a common school education at my mother's fireside, doing the little things that came to my hands, and by constant faithful study, by the light of pine knots, I graduated from the Fireside University."

You see by doing the little things that came to his hands, with constant study, he became a great man. Wilbur Wright, called by some, the "Bird-man," with his brother Orville, was building bicycles in Dayton, Ohio, in a little shop only 9 years ago. One day he said to his brother, "Let us build a flying machine." He did build a "heavier than air" machine, and on the day of its first trial, flew 25 miles.

For a thousand years men of science and learning have tried to fly, but only to fall. Wilbur Wright lived to be honored by Kings, Statesmen, and men of learning all over the world. The smallest detail of his flying machine engaged his most careful attention. "He never made a flight," wrote someone of him, "without the most careful examination of every screw, every bolt, every little wire, then he took his seat, pulled down his cap, turned the lever and was off." It was the little things that claimed the attention of Wilbur Wright, that brought success to him.

My young friends it was the doing of little things in your young lives that brought you to the day of graduation.

You go out of this place of learning tonight, perhaps, for the last time as pupils, but all through life, remember the words of a great man. "Little things are little things, but little things, faithfully done, are something great!"
